## PATIENT CHECKLIST

Whether your are new or a valued continuing patient to your office, please review the ensuing checklist before your appointment. Doing so helps our doctors serve you best, while also minimizing your registration time.

If you are a <b>new patient</b> or have not updated your information in the <b>past 5 years</b> , please download and print our <u>Patient History Form</u> . To minimize your registration time, simply fill this out and bring it in with you to your appointment.
Bring with you a list of all the oral medications you may be taking, including over the counter supplements.
Bring a list of any eye drops you may be using, both prescription and over the counter.
Bring your insurance cards (vision and medical) so that we can file your visits appropriately.
Bring all eye wear (indoor and outdoor) you currently wear or use.
If you are a contact lens wearer, please bring in the boxes or blisters packs which indicate your lens parameters. Along with this, please know which contact lens solution you are using.

Due to the thoroughness of our initial examination, please plan on spending approximately 75 minutes in our office. We look forward to seeing you for your appointment!
